Queen Elizabeth Hospital Birmingham	2007	2008
Number of incidences of acute bowel ischaemia by any cause	17	40
Mortality rate for acute bowel ischaemia by any cause	6	12
Number of incidences of death during an extended hemicolectomy by open surgery	S12	S12
All mortality rates during an extended hemicolectomy by open surgery	S12	S12
Number of incidences of death during an extended hemicolectomy by lapriscopic surgery	S12	S12
All mortality rates during an extended hemicolectomy by lapriscopic surgery	S12	S12
Number of incidences of developing acute bowel ischaemia following extended hemicolectomy by open surgery	S12	S12
Rate of developing acute bowel ischaemia following extended hemicolectomy by open surgery	S12	S12
Number of incidences of developing acute bowel ischaemia following extended hemicolectomy by laproscopic surgery	S12	S12
Rate of developing acute bowel ischaemia following extended hemicolectomy by laproscopic surgery	S12	S12
Number of incidences of death from acute bowel ischaemia following extended hemicolectomy by open surgery	S12	S12
Mortality rate from acute bowel ischaemia following extended hemicolectomy by open surgery	S12	S12
Number of incidences of death from acute bowel ischaemia following extended hemicolectomy by laproscopic surgery	S12	S12
Mortality rate from acute bowel ischaemia following extended hemicolectomy by laproscopic surgery	S12	S12
Number of incidences of death from acute bowel ischaemia following any surgery to the bowel by open surgery	S12	S12
Mortality rate from acute bowel ischaemia following any surgery to the bowel by open surgery	S12	S12
Number of incidences of death from acute bowel ischaemia following any surgery to the bowel by laproscopic surgery	S12	S12
Mortality rate from acute bowel ischaemia following any surgery to the bowel by laproscopic surgery	S12	S12
