

Freedom of Information Request: 0442

University Hospitals Birmingham NHS Foundation Trust (UHB) completed a merger by acquisition of Heart of England NHS Foundation Trust (HEFT) on 1st April 2018. Due to historical differences in data collection/reporting across UHB and the former Heart of England NHS Foundation Trust this response has been provided by hospital site.

I would like to request the following information under the freedom of information act.

Queen Elizabeth Hospital Birmingham

Can you please tell provide me with the information for the following years 2016-17, 2017-18 and 2018-19 (up to the date this request was received), in monthly breakdowns:

- 1a. Of all patients recorded in the Sepsis CQUIN figures by the Trust, showing the number presenting with simple sepsis/ severe sepsis, Red Flag Sepsis or septic -shock, (depending on the protocols in place at the time) that received intravenous antibiotics within the hour, please state the number where death was a recorded outcome;**

Time period after Sepsis date that patient died was not stipulated. Assumed 30 day mortality requested:

2016/17 - 55

2017/18 - 40

2018/19 (Q1) - 3

- 1b. Of all patients recorded in the Sepsis CQUIN figures by the Trust, showing the number presenting with simple sepsis/severe sepsis, Red Flag Sepsis or septic shock, (depending on the protocols in place at the time) that did not receive intravenous antibiotics within the hour, please state the number where death was a recorded outcome;**

Time period after Sepsis date that patient died was not stipulated. Assumed 30 day mortality requested:

2016/17 - 9

2017/18 - 11

2018/19 (Q1) - 1

- 2a. **Of all patients recorded in the Sepsis CQUIN figures by the Trust for 2016-17 and 2015-16, showing the number presenting with simple sepsis/severe sepsis, Red Flag Sepsis or septic shock, (depending on the protocols in place at the time) that received intravenous antibiotics within the hour, please give the number of cases that were subsequently investigated as part of the hospital's internal clinical risk reporting process;**

"The Trust requires all clinical and non-clinical incidents, including near misses, to be formally reported. When an incident occurs a Trust Incident Report Form (IRF) must be completed as soon as possible, in line with the Procedure for the Reporting and Management of Incidents Including Serious Incidents. The system we use in the Trust is Datix."

One

- 2b. **Of all patients recorded in the Sepsis CQUIN figures by the Trust for 2016-17 and 2015-16, showing the number presenting with simple sepsis/ severe sepsis, Red Flag Sepsis or septic shock, (depending on the protocols in place at the time) that did not receive intravenous antibiotics within the hour, please give the number of cases that were subsequently investigated as part of the hospital's internal clinical risk reporting process;**
