
Consultant Percutaneous Coronary Intervention (PCI) Operator Report

Consultant Name: Jerome Ment

GMC Number: 3608937

Hospitals at which PCI was Performed:

Hospital	Count
Birmingham Heartlands Hospital	185
Priory Hospital, Birmingham	4

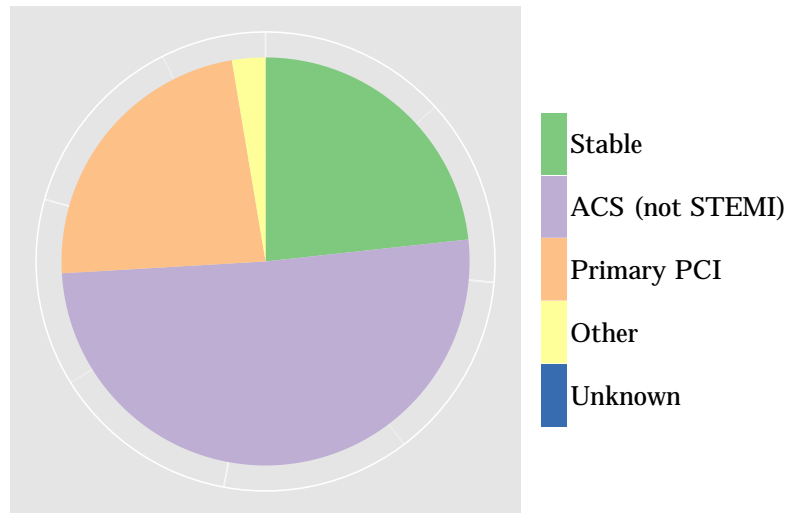

Data from 1st January 2012 to 31st December 2012 inclusive.

Extent of Missing Data in Variables Relevant to MACCE Risk Estimation:

	Age	Sex	Medical History	Shock	Urgency	Vessels Attempted
Count	0	1	9	4	0	8
Percent	0	0.53	4.76	2.12	0	4.23

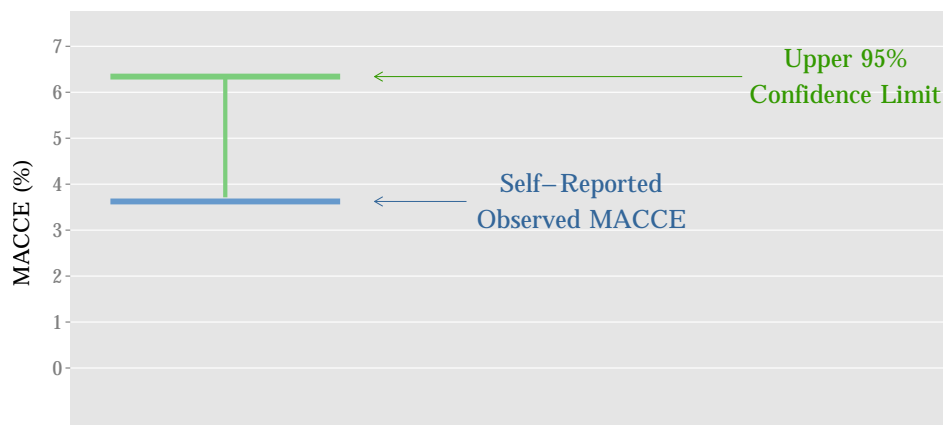

Total Number of PCI Procedures: 189

Number of Procedures Split by Clinical Syndrome:

Indication	Count
Stable	44
ACS (not STEMI)	96
Primary PCI	44
Other	5
Unknown	0

Major Adverse Cardiac and Cerebrovascular Event (MACCE) Rate:

	Rate Per 100 Procedures
Self-Reported Observed MACCE	3.70
Upper 95% Confidence Limit	6.34

These data may include procedures on persons who underwent multiple interventions during a single episode of care. The allocation of MACCE to consultants within a multi-procedure episode of care may change in future analyses.
