## Consultant Percutaneous Coronary Intervention (PCI) Operator Report

Consultant Name: Gurbir Bhatia

GMC Number: 4293680

Hospitals at which PCI was Performed:

Hospital	Count
Birmingham Heartlands Hospital	187

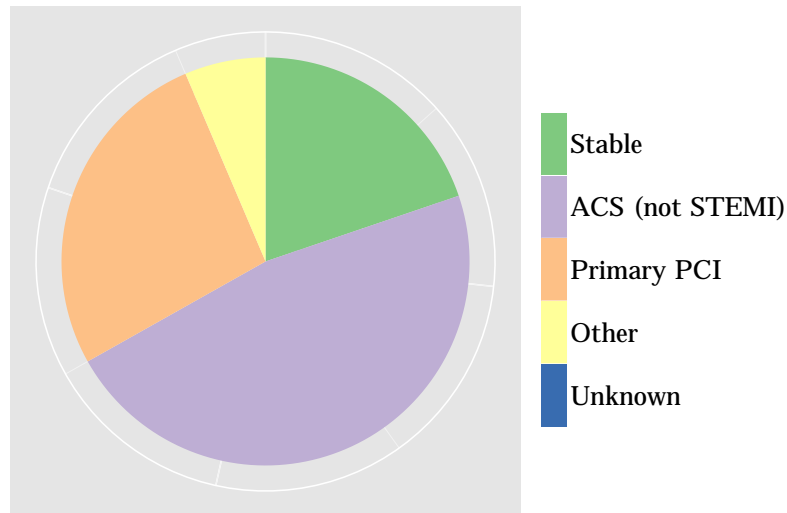

Data from 1st January 2012 to 31st December 2012 inclusive.

Extent of Missing Data in Variables Relevant to MACCE Risk Estimation:

	Age	Sex	Medical History	Shock	Urgency	Vessels Attempted
Count	0	0	8	1	0	0
Percent	0	0	4.28	0.53	0	0

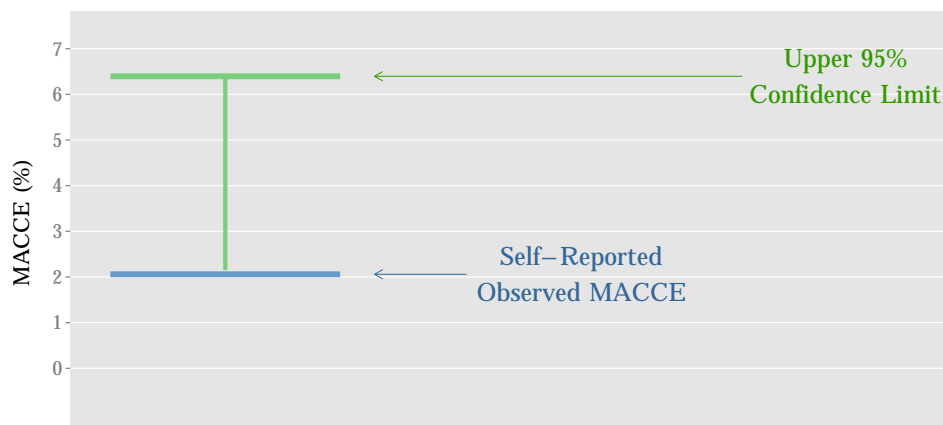

Total Number of PCI Procedures: 187

Number of Procedures Split by Clinical Syndrome:

Indication	Count
Stable	37
ACS (not STEMI)	88
Primary PCI	50
Other	12
Unknown	0

Major Adverse Cardiac and Cerebrovascular Event (MACCE) Rate:

	Rate Per 100 Procedures
Self-Reported Observed MACCE	2.14
Upper 95% Confidence Limit	6.40

These data may include procedures on persons who underwent multiple interventions during a single episode of care. The allocation of MACCE to consultants within a multi-procedure episode of care may change in future analyses.
