
Consultant Percutaneous Coronary Intervention (PCI) Operator Report

Consultant Name: Ramamurthy Sathyamoorthy

GMC Number: 6144961

Hospitals at which PCI was Performed:

Hospital	Count
Birmingham Heartlands Hospital	89

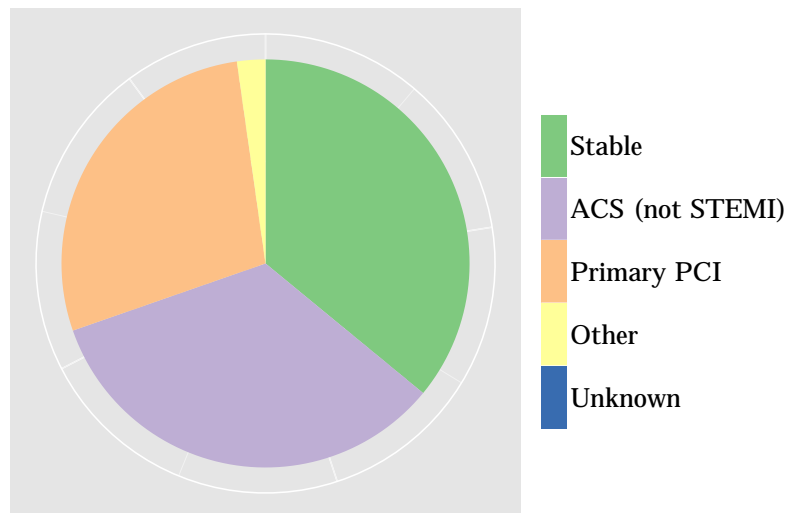

Data from 1st January 2012 to 31st December 2012 inclusive.

Extent of Missing Data in Variables Relevant to MACCE Risk Estimation:

	Age	Sex	Medical History	Shock	Urgency	Vessels Attempted
Count	0	0	3	0	0	0
Percent	0	0	3.37	0	0	0

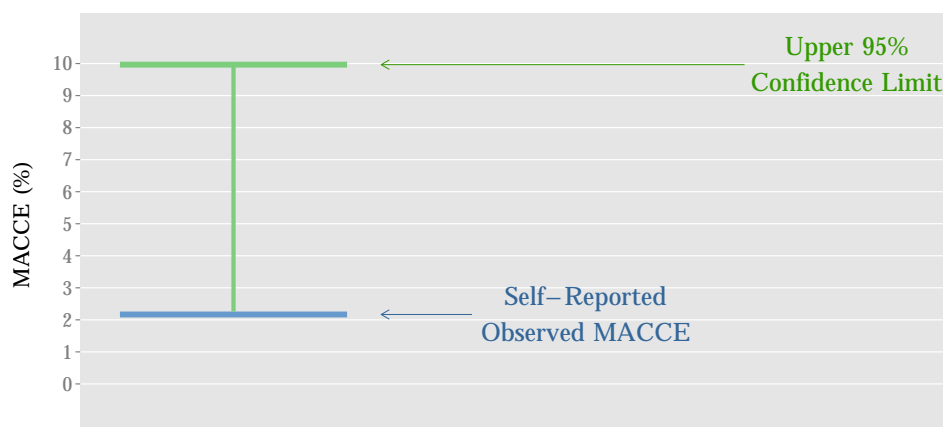

Total Number of PCI Procedures: 89

Number of Procedures Split by Clinical Syndrome:

Indication	Count
Stable	32
ACS (not STEMI)	30
Primary PCI	25
Other	2
Unknown	0

Major Adverse Cardiac and Cerebrovascular Event (MACCE) Rate:

	Rate Per 100 Procedures
Self-Reported Observed MACCE	2.25
Upper 95% Confidence Limit	9.97

These data may include procedures on persons who underwent multiple interventions during a single episode of care. The allocation of MACCE to consultants within a multi-procedure episode of care may change in future analyses.
